

# Mould, Mildew & Moss Removal

## Product Application Sheet - Triple7 Heavy Duty

Triple7 Heavy Duty is used to remove micro-organisms while eliminating related odours removing all common mildew and other spore-form organisms without damage to the cleaning surface.

### Applications Include:

- Foundation and Retaining Walls
- Footpaths & Driveways
- Decks
- Stairways
- Amenities & Changerooms
- Showers, Floors, Walls & Ceilings
- Basement Moisture areas
- Laundry
- Drains

... almost anywhere mould growth is experienced.

### Directions for use:

#### Hard Surfaces:

Spray apply 10% Triple7 Heavy Duty directly to affected surface and let stand for 3-5 minutes before lightly brushing surface with a nylon bristle brush and sponge. Thoroughly rinse surface with clean warm water and repeat application for deeply imbedded mildew or fungus. Re-apply 2% Triple7 Heavy Duty directly to surface by spraying or wiping on and let dry to act as a barrier.

#### Pressure Washer applications:

Use 1% to 2 % Triple7 Heavy Duty and 43°C (or higher) water.

For mould removal in areas that require sanitisation, the use of Triple7 AquaSmart is recommended.

Triple7 Heavy Duty is a plant based product derived from seed and vegetable fatty alcohols and is non-toxic, readily bio-degradable and does not contain; glycol ethers (such as butyl cellulose), terpenes (such as, citrus solvents), caustics or metasilicates, synthetics, petroleum distillates, aromatics, builders or reagents.

**Caution:** While Triple7 Heavy Duty will not harm washable fabric, residual product left on surfaces may cause darkening or re-soiling as carpeting will attract dirt from shoes. To prevent discolouration of fabrics and carpets, machine wash or use machine extraction with ample rinse.
