

ECO-SCALE PLUS

CONCENTRATED LIMESCALE AND CALCIUM REMOVER

What is Triple7 Eco-Scale Plus?

Triple7 Eco-Scale Plus is a completely new concept for scale removal. Triple7 Eco-Scale Plus' powerful botanical formulation removes encrustation from virtually any surface without the high corrosion experienced with standard alternatives.

What's more, Triple7 Eco-Scale Plus is the only worksafe/environmental descaler on the Australian market comparable to traditional pipework cleaners that cleans effectively without using harsh chemicals.

Triple7 Eco-Scale Plus is your number one choice for descaling that is free of:

- Caustics
- Phosphates
- Strong acids
- Petroleum products
- Terpenes
- Glycol ethers
- Ammonium compounds & oxalic acid

Making it suitable for use in confined spaces.

EASY, SAFE AND NON-REACTIVE

Powerful & Versatile

A versatile, highly concentrated limescale remover designed specifically for Mining, Oil and Gas Industry applications

Worksafe & Ecofriendly

A worksafe limescale cleaner made from a botanical formulation. It is free from strong, corrosive acids and toxic ingredients.

Cost Effective

The super concentration of Triple7 Eco-Scale Plus limescale remover makes it very cost effective. For general cleaning applications 1 litre of concentrate makes up to 10 litres of ready to use product.

Environmentally Sustainable

A concentrated surfactant formulation derived from readily renewable resources. The product contains no toxic ingredients and will not harm water, soil or air environments.

ECO-SCALE PLUS

CONCENTRATED LIMESCALE AND CALCIUM REMOVER

Protects Equipment

Triple7 Eco-Scale Plus's unique surfactant technology effectively and easily removes limescale, with minimum downtime and without harming or corroding critical equipment.

Unlike harsh caustic limescale removers, Triple7 Eco-Scale Plus is free of salts and strong acids; it produces a powerful cleaning action without damaging hard surfaces, seals, rubbers, equipment and pipework systems often associated with Mining, Oil and Gas equipment.

Clean Equipment without Dismantling

Triple7 Eco-Scale Plus is designed for maximum limescale removal performance with minimum equipment downtime. Due to its low corrosion formula and low flammability, Triple7 Eco-Scale Plus can often be used to remove calcium and limescale from equipment while it is in place. This drastically reduces labour costs, down time and loss of production.

Enhances System Performance & Reduces Failure Rates

Triple7 Eco-Scale Plus restores mining systems to optimum performance, prolongs equipment life and reduces failure rates.

Triple7 Eco-Scale Plus is available in the following sizes:

Part No #	Product	Size
AAESCPL-5	Triple7 Eco-Scale Plus	5 Litre
AAESCPL-20	Triple7 Eco-Scale Plus	20 Litre
AAESCPL-200	Triple7 Eco-Scale Plus	200 Litre
AAESCPL-BB	Triple7 Eco-Scale Plus	1000 Litre

The super concentration of Triple7 Eco-Scale Plus limescale remover makes it very cost effective. For general cleaning applications 1 litre of concentrate makes up to 10 litres of ready to use product.

Buying products in a concentrate form saves on storage space and transport costs, as well as lowering fuel emissions related to transportation.
